WORK EXPERIENCE

DICK'S SPORTING GOODS

September 2020 - present

Senior Software Engineer | January 2023 - present

Remote

- Develop and maintain a custom appointment booking system active in nearly 300 stores with 85k monthly active users and 45k monthly booked appointments.
- Recognized as the Store Technology All-Star in Q4 2023 for contributions to Front-end Excellence and Design Systems.
- Serve as the champion for the Store Technology Front-end Excellence group, guiding projects like the Stores Design System, Seamless Teammate Authentication, and front-end standards and best practices documentation.
- Won Second Place in the 2023 DSG Tech Hackathon.
- Serve as a leader on my product team by interfacing with stakeholders and business partners, organizing and guiding technical discussions, reviewing code changes, managing the SDLC, participating in on-call rotations, mentoring and teaching junior engineers, and identifying and implementing standards and best practices.

Software Engineer II | September 2020 - January 2023

- Prior to my promotion to Senior Software Engineer, the scope of my duties was similar but narrower.
- Gave a organization-wide presentation on Tailwind CSS and how it can speed up development iteration.

TOBII DYNAVOX

August 2018 - September 2020

Software Engineer

Remote; Pittsburgh, PA

- Tobii Dynavox makes assistive technology for communication (tobiidynavox.com).
- As a Software Engineer, I developed applications to support our internal operations, including medical funding, billing, and customer service processes.
 - Developed an automated device reset process that saved the customer service team forty hours of work every week.
 - Leveraged Twilio to build functionality which enabled the billing team to send personalized messages to customers.
- Introduced modern technologies to our tech stack, including React, Tailwind CSS, and .NET Core.

VTR Solutions

January 2017 - January 2018

Software Developer

Shawnee, OK

- VTR Solutions builds learning management software catered to professionals seeking continuing education credits in various fields, including HR and accounting (vtrpro.com).
- Built out basic brand guidelines and a design system for the product.
